## #273-15 DENIM HALF DOORS

Please notice that your new half doors have powder coated hinge pins. Occasionally the powder coating on these pins is too thick to allow the hinge pin to fit into the body side hinge on your Land Cruiser. If this is the case with the doors that you have received, please do not force the pins into the hinges this will damage the pin and possibly break it. Remove the powder coating in the area of the hinge pin that fits into the hinge using some sandpaper. This should allow the door to be installed easily into the hinges and not bind when the door is opened and closed.
